

14 April 1975

OGC HAS REVIEWED.

MEMORANDUM FOR THE RECORD

SUBJECT: [REDACTED]

1. The Director and the undersigned met with [REDACTED] and his attorney, [REDACTED] on 11 April 1975. [REDACTED] indicated that he had considered various aspects of the law relating to Agency physical surveillance of [REDACTED] in 1971. He indicated that the law was somewhat cloudy, although possibly they could get an injunction. He then stated possibly their objectives could be reached in some other way.

2. [REDACTED] stated that [REDACTED] would like to review his file. Mr. Colby indicated immediately that in the previous interview with [REDACTED] had stated he would like to look at the file, the Director's response at that time had been he would prefer not. The Director then stated that we would certainly permit [REDACTED] to review it. He pointed out, however, that we would have to review it for classified information, to delete names of Agency employees concerned and also would have to review it from the standpoint of not invading the privacy of any third party. [REDACTED] asked specifically about photographs and was told that these would be made available. The Director not only offered to let him review the file, he stated he would send him copies of those items which could be made available. [REDACTED] was most appreciative and stated he would prefer to pick them up himself.

3. The second matter raised by [REDACTED] was an inquiry as to whether this file would be passed to the Rockefeller Commission and the Select Committees of the Congress investigating the Agency. The Director said he would resist this most vigorously. [REDACTED] asked if the Director were pressed on this could they be advised, since they would like to make their own efforts to prevent the file being transmitted. The Director agreed to this.

4. The third matter which [REDACTED] raised was a question of eventual destruction of the file within the Agency. The Director stated that this has been his objective for some time. He pointed out, however, that because of the current investigations, including specifically Senator Mansfield's letter

requesting the Agency not destroy documents, he cannot do so at this time.  
However the Director stated that at an appropriate time he would destroy the  
[ ] file.
